FORWARD LOOKING STATEMENTS

Certain statements contained under the headings "General Development of the Business" and "Description of the Business" of this annual information form constitute forward-looking statements. These statements relate to future events or the Corporation's future performance, business or opportunities. All statements other than statements of historical fact may be forward-looking statements. The use of any of the words "anticipate", "continue", "expect", "may", "will", "project", "should", "believe" and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. The Corporation believes the expectations reflected in those forward-looking statements are reasonable but no assurance can be given that these expectations will prove to be correct, and such forward-looking statements included in this annual information form should not be unduly relied upon. The Corporation does not undertake to update or amend such forward-looking information whether as a result of new information, future events or otherwise, except as may be required by applicable law. These statements only hold true as of the date of this annual information form and reference is made to the "Risk Factors" subheading for further discussion about the inherent risks and uncertainties surrounding future expectations. These factors should not be construed as exhaustive.

Such statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to assumptions about:

- Stability of worldwide economy;
- Recent industry trends and factors affecting aviation demand;
- Continued growth in commercial aircraft demand (large, regional and business aircraft);
- Stability of the military market demand;
- Reliance on large customers;
- Availability of raw material and stability of its cost;
- Stability in foreign exchange rate, mainly the Canadian with the U.S. dollar;
- Ability of the supply base to support planned production rate;
- Normal contract execution and continued deployment of strategic initiatives, especially those linked to cost reductions;
- Liquidity and access to capital resources and availability of credit facility
- Factors affecting restrictive debt covenants and fluctuations in interest rates;
- Operational risks related to Aerospace business:
- Factors affecting environmental matters;
- Renewal of collective bargaining agreements;
- Availability of skilled labour;
- Pressure on Government military spending; and
- Successful integration of APPH (as hereinafter defined).

ITEM 1: CORPORATE STRUCTURE

1.1 Name, Address and Incorporation

Héroux-Devtek Inc. (the "Corporation" or "Héroux-Devtek") was initially incorporated on March 17, 1942 by letters patent issued pursuant to Part I of the *Companies Act* (Québec) under the name Héroux Machine Parts Limited. Supplementary letters patent amending the Corporation's borrowing powers, name and share capital, among other provisions, were issued on July 6, 1943, August 17, 1947, March 13, 1967, May 25, 1978 and December 15, 1978. The Corporation was continued under Part IA of the *Companies Act* (Québec) by a certificate of continuance dated September 30, 1982. The Corporation is now subject to the *Business Corporations Act* (Québec) which was enacted on February 14, 2011.

On June 26, 1985, the Corporation amalgamated with 2320-4894 Québec Inc., a management company incorporated by the Corporation's then two senior executives, in connection with the sale by Bombardier Inc. of its shares in the Corporation. In June 2000, the Corporation announced the successful completion of its take-over bid for all the shares of Devtek Corporation ("Devtek"), a public company whose shares were listed on the Toronto Stock Exchange (the "TSX"). Devtek was a Toronto-based well-established manufacturer of systems, assemblies, and components for the aerospace industry. Articles of amendment were filed on September 8, 2000 to change the Corporation's name to its current name following the acquisition of Devtek, effective June 12, 2000.

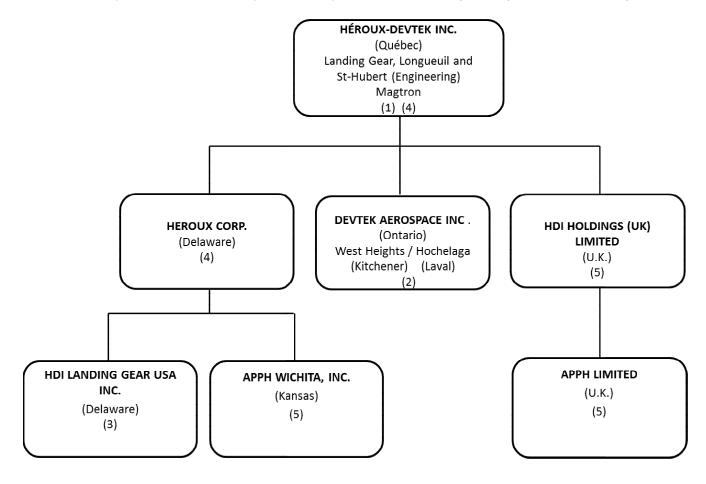

On March 30, 2006, Héroux-Devtek Aerostructure Inc., an indirect wholly-owned subsidiary of the Corporation, was wound up into the Corporation and all the assets, including the three plants owned by it, were transferred to the Corporation. The operations formerly conducted by Héroux-Devtek Aerostructure Inc. in Dorval, by Les Industries C.A.T. Inc. in Montreal and by Magtron Precision ("Magtron") in Toronto were then operated by the Aerostructure Product Line of the Corporation. As discussed later in this document, Les Industries C.A.T. Inc. was closed in 2010, its operations were integrated into other landing gear facilities and the Dorval facility was sold, as part of the divestiture of the Aerostructure and Industrial divisions, to PCC (as hereinafter defined) in August 2012.

On February 3, 2014, the Corporation has acquired the entire share capital of United Kingdom ("U.K.") based APPH Limited and United States ("U.S.") based APPH Wichita, Inc. (together "APPH"), subsidiaries of BBA Aviation Plc. APPH is an integrated provider of landing gear and hydraulic systems and assemblies for original equipment manufacturer ("OEM") and aftermarket applications. APPH Limited is based in Runcorn, Nottingham and Bolton in the U.K., and APPH Wichita, Inc. is based in Wichita, Kansas.

The Corporation has its principal and registered offices at Suite 658, East Tower, 1111 Saint-Charles Street West, Longueuil, Québec, J4K 5G4. The Corporation's fiscal year-end is March 31st. Unless indicated otherwise, "Corporation" or "Héroux-Devtek" when used hereinafter refer to Héroux-Devtek Inc. and its subsidiaries.

1.2 Subsidiaries and Inter-corporate Relationships

The following organization chart shows the corporate structure of the Corporation, its subsidiaries, all of which are wholly owned, either directly or indirectly, as well as their respective jurisdiction of incorporation:

- (1) Héroux-Devtek Aerostructure Inc. was wound up into Héroux-Devtek Inc. on March 30, 2006. The operations conducted by Héroux-Devtek Aerostructure Inc. in Dorval, as well as the operations conducted by Les Industries C.A.T. Inc. (Montreal) and Magtron Precision (Toronto) as of that date, have been continued by the Corporation.
- (2) Devtek Corporation and Devtek Aerospace Inc. were amalgamated on April 1st, 2006 and continued their activities under the name Devtek Aerospace Inc.
- (3) HDI Landing Gear USA Inc. was created on February 22, 2010 for the acquisition of the net assets of Eagle Tool & Machine Co., Inc. and its subsidiary All Tools, Inc. (d/b/a E-2 Precision Products).
- (4) Continuing operations following the sale of substantially all of the Corporation's Aerostructure and Industrial Product Lines See subheading *Discontinued Operations* hereinafter.
- (5) HDI Holdings (UK) Limited was created on January 28th, 2014 for the acquisition of APPH Limited. APPH Limited and APPH Wichita, Inc. were acquired by Héroux-Devtek on February 3rd 2014.

ITEM 2: GENERAL DEVELOPMENT OF THE BUSINESS

2.1 General

Héroux-Devtek and its subsidiaries specialize in the design, development, manufacture, repair and overhaul of landing gear and hydraulic systems and components used in the Aerospace market.

The Corporation is one of the largest landing gear companies in the world, supplying both the commercial and military sectors of the Aerospace market with new landing gear and hydraulic systems and components as well as aftermarket products and services (including spare parts and repair and overhaul services). Following the acquisition of APPH, the Corporation covers Europe and North American markets. In the commercial sector,

the Corporation is active in the large commercial and business jet, regional aircraft and helicopter markets. On the military side, the Corporation provides systems, parts and services for military aircraft mainly in both the U.S. and in Europe. As such, a significant portion of the Corporation's sales are made to a limited number of customers located in Europe, the U.S. and Canada.

The Corporation's head office is located in Longueuil, Québec with facilities in the Greater Montreal area (Longueuil, Laval and St-Hubert); Kitchener and Toronto, Ontario; Springfield and Cleveland, Ohio, Wichita, Kansas; as well as Bolton, Runcorn and Nottingham in the U.K. All facilities are involved in the fabrication of landing gear systems and components with the exception of the Toronto facility (Magtron), which manufactures electronic enclosures, heat exchangers and cabinets for airborne radar, electro-optic systems and aircraft controls and the Bolton facility ("Bolton"), which manufactures fluid filter products. The Toronto facility provides competencies in vacuum and dip brazing metal joining technologies and became Canada's first facility to be Nadcap certified in aluminum vacuum brazing.

2.2 Discontinued Operations

On July 16, 2012, the Corporation executed a definitive agreement for the sale of substantially all of its Aerostructure and Industrial Product Lines operations to Precision Castparts Corporation ("PCC"), a public company whose shares are traded on the New York Stock Exchange (the "Sale Transaction"). The Sale Transaction was completed on August 31, 2012 and the net assets acquired by PCC included the Corporation's Dorval (Quebec), Querétaro (Mexico) and Arlington (Texas) Aerostucture Product Line manufacturing sites, as well as the Cincinnati (Ohio) Industrial Product Line manufacturing site - See subheading 2.3 Fiscal Year ended March 31, 2013 (Fiscal Year 2013) hereinafter.

Prior to the Sale Transaction, the Aerostructure Product Line was part of the Corporation's Aerospace segment, while Industrial Product Line formed the Industrial segment. Therefore, all of the operations of the business sold are now excluded from the Corporation's segmented information. Following this Sale Transaction, the Corporation is now operating only in the Aerospace segment and is comprised essentially of the Landing Gear Product Line and Magtron and Bolton operations.

2.3 Developments over the Last Three Fiscal Years

The following events and conditions have affected the general development of the business of the Corporation over the last three fiscal years.

Each subsection contains information regarding the year to which it refers and does not take into consideration events in future years.

Fiscal Year ended March 31, 2012 (Fiscal Year 2012)

On April 19, 2011, the Corporation announced that its 335 unionized employees at its Longueuil Landing Gear Product Line facility voted in favour of a three-year collective agreement which extends through May 1, 2014.

On April 26, 2011, the Corporation announced the construction of a new manufacturing facility in the Querétaro Aerospace Park in Mexico, leased to Heroux Devtek México, S.A. de C.V. by Proyectos Aerospaciales, S. de R.L. de C.V. The first phase of the project consisted of the erection of a 47,200 square-foot facility equipped with state-of-the-art machinery for the production of aerostructure components. Along with the execution of contracts for other customers, production in Mexico consisted of certain detailed parts for Bombardier commercial and business aircraft. On November 15, 2011, the Corporation proceeded with the official inauguration of this new manufacturing facility in the Querétaro Aerospace Park. As described elsewhere in this annual information form, the Queretaro facility, part of the Aerostucture Product Line, was sold to PCC as of August 31, 2012.

On June 21, 2011, the Corporation announced that it has been awarded a seven-year contract by Lockheed Martin Aeronautics Company ("Lockheed Martin").

On November 29, 2011, the Corporation announced that the Brazilian aircraft manufacturer Embraer awarded the Embraer Suppliers Award - ESC 2011 in the Development Program category to its Landing Gear Product Line operations. One of eight companies worldwide honoured in as many categories, Héroux-Devtek had won

the same award in 2009. This award recognizes performance excellence in quality, flexibility, deliveries, customer support and development by Héroux-Devtek's Landing gear Product Line operations for their involvement in the Legacy 450 and 500 business jet programs.

On December 14, 2011, the Corporation announced that its 123 unionized employees at its Laval Landing Gear Product Line facility have voted in favour of a new three-year collective agreement which extends through December 31, 2014. The Laval facility manufactures, repairs and overhauls small-to medium-size components for landing gear systems and hydraulic flight control actuators.

In the summer of 2012, Héroux-Devtek completed the relocation of its Cleveland facility from the leased property located at 7500 Associate Ave. to a 60,000 sq.ft building acquired on November 14, 2011 and located at 15900 Foltz Industrial Parkway in Strongsville Ohio.

Fiscal Year ended March 31, 2013 (Fiscal Year 2013)

On July 16, 2012, the Corporation executed a definitive agreement for the sale of substantially all of its Aerostructure and Industrial Product Lines operations to PCC for \$297.8 million in cash. Héroux-Devtek has realized net cash proceeds of \$234.3 million from the sale, net of related taxes and transaction costs. The assets acquired by PCC included Héroux-Devtek's Dorval (Quebec), Querétaro (Mexico) and Arlington (Texas) Aerostructure Product Line manufacturing sites, as well as the Cincinnati (Ohio) Industrial Product Line manufacturing site. The transaction closed on August 31, 2012. The Corporation is now focused on growth opportunities in its core landing gear operations and also in its Magtron operations, leveraging its market-leading position in the sector.

On July 18, 2012, the Corporation announced that it has renewed an important long-term contract with the U.S. Air Force ("USAF") to provide landing gear repair and overhaul services for the C-130, E-3 and KC-135R aircraft. The contract is for a definite four-year term, extending to August 2016. Based on the Corporation's expectations, the contract is valued at up to \$90 million. Under the terms of the agreement, Héroux-Devtek is also responsible for the manufacturing and delivery of aftermarket components for these aircraft.

On September 24, 2012 the Corporation announced that it has received a license from The Boeing Company ("Boeing") (to service the H-47 Chinook aircraft landing gear in nearly a dozen countries). The license makes Héroux-Devtek eligible to offer its services to fabricate replacement parts and carry out repair and overhaul services for the landing gear of all variants of the Chinook aircraft. The agreement also includes renewal periods beyond the initial five-year period.

On November 19, 2012, the Corporation announced that it has been awarded a multi-year contract from Boeing to manufacture the landing gear for the H-47 Chinook medium-to-heavy-lift helicopter. Under the terms of the agreement, Héroux-Devtek will fabricate the landing gear for all Chinook aircraft destined to the U.S. Army. Landing gear deliveries have started in March 2014 and will be spread out over the next five-year period. Current program expectations call for the delivery of 155 aircraft to the U.S. Army over the contracted period. The contract also includes options, exercisable at Boeing's discretion, to fabricate the landing gear for up to 150 additional aircraft over the same period. This new long-term contract is the third agreement actively involving Héroux-Devtek on the H-47 program. The first announcement, in September 2009, was in regards to the fabrication, assembly, testing and delivery of the landing gear for H-47F aircraft delivered to customers outside the U.S., including the CH-147, as it is known for the Canadian Forces. The second agreement, announced in September 2012, was for a license allowing the Corporation to offer its services to fabricate replacement parts and carry out repair and overhaul services for the landing gear of all Chinook variants.

The Corporation announced in November 2012 a special cash distribution of \$5.00 per share. This special distribution followed the sale by Héroux-Devtek of substantially all of its Aerostructure and Industrial Product Lines operations to PCC at the end of August 2012. On December 18, 2012, the shareholders of the Corporation have voted in favour of a special resolution to reduce the amount of the Corporation's issued share capital by \$2.70 per share and, therefore, the special cash distribution of \$5.00 per share was composed of a capital reduction and repayment of \$2.70 per share and a special cash dividend of \$2.30 per share. The special cash distribution was paid on December 19, 2012.

The Corporation announced in March 2013 that Industry Canada has provided the Corporation with a repayable loan contribution of up to \$48.9 million. The funds are being used to support Héroux-Devtek's engineering

efforts in connection with the research and development of new technologies for complete new landing gear systems. The investment is made over a five-year period and the contribution will become gradually repayable one year following the end of that period. The investment is being made through the Government of Canada's Strategic Aerospace and Defense Initiative, which supports strategic industrial research and precompetitive development projects in the aerospace, defense, space and security industries.

Fiscal Year ended March 31, 2014 (Fiscal Year 2014)

In September 2013, the Corporation announced that its wholly-owned subsidiary HDI Landing Gear USA Inc. has signed a Memorandum of Agreement with Boeing to supply complete landing gear systems for the Boeing 777 and 777X, contingent on launch of the 777X program. A long-term contract was signed on December 18, 2013. Under the terms of the long-term contract, HDI Landing Gear USA Inc. will supply complete landing gear systems, including the main and nose landing gear, and the nose landing gear drag strut. The contract includes manufacturing parts for Boeing to sell in the aftermarket. Deliveries are scheduled to begin in early calendar 2017, with an option to extend the contract through 2028.

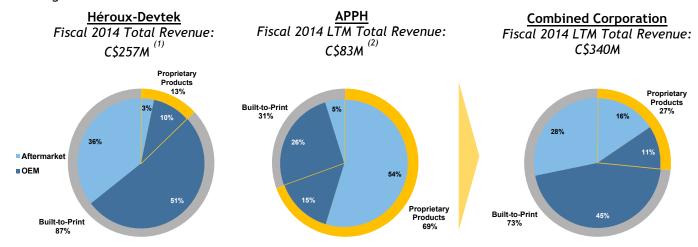

In December 2013, the Corporation was notified by UTC Aerospace Systems ("UTAS") of its intent to initiate arbitration relating to the interpretation of a non-compete covenant contained in an agreement between Goodrich Corporation, member of UTAS group, and Devtek Aerospace Inc. The disagreement involves the Corporation's planned activities relating to the manufacturing of pistons in support of the long-term contract with Boeing. The Corporation disagrees with UTAS' position and firmly believes that it is acting in conformity with its agreements.

On December 19, 2013, the Corporation announced that its 110 unionized employees at its Landing Gear Product Line facility in Laval have agreed to an advanced four-year extension to the current collective agreement, which now extends through December 31, 2018.

In January 2014, because the combined effect of reduced base defense budget funding, the continued sequestration situation and the recent U.S. government shutdown negatively impacted the USAF available budget for various programs and after having announced the temporary layoff of approximately 40 employees at its Longueuil facility in November 2013, the Corporation further announced the permanent layoffs of approximately 55 employees at its Longueuil facility. These layoffs were made in initiatives to optimize and consolidate manufacturing capacity, while further enhancing productivity throughout the organization. The layoffs began in April 2014 and are expected to take place over a 12-month period, after which approximately 15 workers will remain on site. Going forward, the Corporation's Longueuil operations will have a combined workforce of approximately 360 employees.

On February 3, 2014, the Corporation announced the acquisition of APPH, an integrated provider of landing gear and hydraulic systems and assemblies for original equipment manufacturer ("OEM") and aftermarket applications. APPH Limited (headquartered in Runcorn, U.K.) and APPH Wichita, Inc. (headquartered in Wichita, Kansas) specialize in the design, engineering, manufacturing and aftermarket support of landing gear and hydraulic systems and assemblies for fixed and rotary wing civil and military aircraft. Héroux-Devtek acquired four plants located in the U.K. and one plant in Wichita, Kansas. These plants have a combined workforce of approximately 400 employees, including a design engineering department staffed with 40 professionals. APPH's main design programs include landing gear systems for the Hawk, SAAB Gripen, AW101, C27J Spartan and EC175 aircraft. The acquisition of APPH brings significant strategic benefits to the Corporation, while strengthening its global competitive position and status as a leading landing gear system provider for aircraft weighting less than 100,000 pounds. The acquisition expands the Corporation's geographical footprint into the European market, provides significant content on several leading programs, further increases and diversifies the Corporation's customer base, and provides greater exposure to the attractive aftermarket business. APPH also provides Héroux-Devtek with an increased proportion of proprietary programs compared to built-to-print activities.

On a pro forma basis, the impact of the acquisition on the Corporation sales segment is represented by the following charts:

- (1) Héroux-Devtek actual revenue for the last 12 months for the period ended March 31, 2014, excluding APPH contribution.
- (2) APPH total revenue if the acquisition had occurred on April 1, 2013.

On March 31, 2014, the Corporation announced that it has reached an agreement with a syndicate of lenders to amend and restate its existing Credit Facility (the "Facility"). Under the terms of the agreement, the Facility has been extended for a three-year period with a new maturity date set for March 16, 2019 and the authorized amount has been increased from \$150 million to \$200 million, while the Facility could also be increased by an additional amount of \$75 million, subject to lenders' consent. The Facility will be used for working capital, capital expenditures and other general corporate purposes of Héroux-Devtek, including acquisitions. The Facility is secured by all assets of the Corporation and is subject to certain restrictive covenants and corporate guarantees and security granted by the main subsidiaries of the Corporation.

Recent Development

On April 29, 2014, the Corporation announced that its 280 unionized Landing Gear products employees at the Longueuil, Québec facility have voted in favor of a three-year collective agreement, which now extends through April 30, 2017. The workers concerned are members of Unifor, Local Section 1956. The three-year agreement will enable Héroux-Devtek Longueuil's operations to focus on the Corporation's initiatives to optimize this facility as a center of excellence in repair and overhaul, surface treatment, and assembly.

On June 5, 2014, the Corporation announced that it has entered into a bought deal agreement for the issuance, on a bought deal basis, of 3,158,000 common shares of the Corporation at a price of \$11.75 per share for gross proceeds to the Corporation of \$37,106,500 (the "Public Offering"). The syndicate of underwriters is co-led by National Bank Financial Inc. and TD Securities Inc.

In addition to the Public Offering, Caisse de dépôt et placement du Québec and the Solidarity Fund QFL will purchase respectively 570,212 common shares and 527,659 common shares on a private placement basis under the same terms as the Public Offering, for aggregate gross proceeds to the Corporation of \$12,899,984.

Under the Public Offering, the underwriters have also been granted an over-allotment option, exercisable in whole or in part for a period of 30 days following the closing of the Public Offering, to purchase up to 315,000 additional common shares from 2945-0228 Québec Inc., a company controlled by the Corporation's President and Chief Executive Officer.

The Public Offering and the concurrent private placements are expected to close on or about June 26, 2014.

ITEM 3: DESCRIPTION OF THE BUSINESS

3.1 Business Overview

Héroux-Devtek specializes in the design, development, manufacture, repair and overhaul of landing gear and hydraulic systems and components for the Aerospace market - See subheading *Discontinued Operations* above.

The Corporation is one of the largest landing gear companies in the world, supplying both the commercial and military sectors of the Aerospace market with new landing gear and hydraulic systems and components as well as aftermarket products and services (including spare parts and repair and overhaul services). Following the acquisition of APPH, the Corporation covers Europe and North American markets. In the commercial sector, the Corporation is active in the large commercial and business jet, regional aircraft and helicopter markets. On the military side, the Corporation provides systems, parts and services for military aircraft mainly in both the U.S. and in Europe following the acquisition of APPH. As such, a significant portion of the Corporation's sales are made to a limited number of customers located in Europe, the U.S. and Canada.

The Corporation also operates a facility in Toronto (Magtron), which manufactures electronic enclosures, heat exchangers and cabinets for airborne radar, electro-optic systems and aircraft controls. This facility provides competencies in vacuum and dip brazing metal joining technologies and became Canada's first facility to be Nadcap certified in aluminum vacuum brazing. It also operates a facility in Bolton, U.K., which manufactures fluid filter products.

3.2 Description of Market Segments

Aerospace Segment

The Aerospace segment is divided into two main markets. The first is the global aerospace OEM market, for which the Corporation produces landing-gear assemblies. The second market is the aerospace aftermarket, for which the Corporation supplies replacement landing gear components, and also provides hydraulic system and landing gear repair and overhaul services.

OEM Market

A main feature of the aerospace industry is the use of rapidly evolving technologies to develop, design and manufacture systems that meet the detailed performance specifications of end-users.

Participants in this market are generally divided into four tiers. The first tier is comprised of the OEMs, which are mainly aircraft manufacturers. The second tier participants are systems contractors who possess the requisite technical skill to design, as well as the required management resources and financial strength to produce complete systems for the OEMs. The third and fourth tier participants act as sub-contractors for tier one and tier two participants. While second tier participants require similar skills to those of first tier participants, albeit on a scale appropriate to sub-systems (such as complete landing gear actuation and locking systems for aircraft), third tier participants are not required to design any parts of an end-system. Instead, they manufacture assemblies or components which require special skills or technology, or which may call for the creation of specific new manufacturing processes. Fourth tier companies produce less sophisticated components using standard methods. The Corporation competes primarily in tiers two and three.

Stringent quality assurance standards are established by governments and by major prime contractors. These standards are imposed by contract on the successive tiers of sub-contractors and are a principal barrier to entry in the second and third tiers. Successful management of quality is a condition of profitability in these tiers.

Prime contractors rely on selected sub-contractors that have specialty design, manufacturing, or processing capabilities that enable them to manufacture critical sub-systems and components. These sub-contractors are more numerous and smaller in size than the prime contractors and, depending on the tier, either have specialized product design capabilities or are able to consistently apply certain technologies or manufacturing processes.

A successful aircraft program is generally in production for a period of 15 to 20 years or more. It is unusual for the OEMs to terminate their agreements with subcontractors in the course of a program's production phase, when these subcontractors were deeply involved in the early stage of the program. Accordingly, subcontractors such as the Corporation are likely to supply components to the OEMs for the entire life of the program, as long as they remain competitive and deliver quality parts on time.

Major aircraft manufacturers are moving away from in-house manufacturing to concentrate on marketing, design, assembly, and service. This trend has shifted a significant amount of manufacturing work to second tier companies that now need to specialize in the integration of complete systems. Landing gear manufacturers, for instance, are now required to provide not only landing gear, but also all the related systems, such as steering and control mechanisms, from the wheels, brakes and tires to the cockpit.

Historically, the aerospace OEM industry has been affected by economic cycles and, therefore, has experienced significant fluctuations.

Aerospace Aftermarket

The aviation aftermarket consists primarily of the supply of replacement or substitute components and the servicing of commercial and military aircraft. The U.S. ranks as the world's largest aviation market, which is why the Corporation's aftermarket services are mainly aimed at that market. The U.S. also operates the largest fleet of military aircraft in the world.

The U.S. aircraft fleet is maintained by a diversified maintenance, repair, and overhaul ("MRO") industry that comprises airlines, OEMs and military and independent repair stations such as the Corporation. MRO firms that maintain the U.S. aircraft fleet range from small independent repair stations to the largest airlines and OEMs.

The acquisition of APPH provides greater exposure on the aftermarket business into the European market.

On commercial aircraft, maintenance procedures and standards are regulated in the U.S. by the Federal Aviation Administration ("FAA"), in Canada, by Transport Canada and in Europe by the European Aviation Safety Agency ("EASA"). The FAA, Transport Canada and the EASA ensure that aircraft operating in the U.S., Canada and Europe respectively, are airworthy and are maintained by certified repair stations and by duly qualified, skilled, and well-equipped workforce.

3.3 Decentralized Operations

The Corporation specializes in the design, development, manufacture, repair, and overhaul of aircraft landing gear, hydraulic flight control actuators and fracture-critical components. For these activities, the Corporation employs 1,392 people and operates out of thirteen sites located in Longueuil (2 plants in Longueuil and an engineering and testing facility in St-Hubert) and Laval, Québec, Kitchener and Toronto, Ontario, Springfield and Cleveland, Ohio, Wichita, Kansas and Bolton, Runcorn (2 plants) and Nottingham, U.K.

The maintenance and refurbishing of landing gear for the USAF fleet now represents a smaller proportion of the Corporation's activities, mainly due to the entry in services of its design program, the acquisition of APPH and several new military and commercial contracts including the B-777 contract with Boeing. As a result, the Corporation manufactures landing gear and hydraulic systems, sub-assemblies and related components for a broad range of aircraft.

Over the years, the Corporation sought to assign a specific mission to each of its business units, while maintaining the management activities centralized at the Corporate Office located in Longueuil. The Corporation's Corporate Office, consisting of 16 employees, is responsible for managing and or supporting the overall business activities of its business units. It provides valuable supervisory, administrative services and leadership monitoring to the various business units' key management personnel. The Corporate Office is also involved in all major business development decisions, including strategic and long term goals for the Corporation, regulatory matters, internal audit and public reporting requirements.

The Corporation is structured by centers of excellence based on the business unit's core expertise as part of a global manufacturing strategy to maximize operations efficiency. On the other hand, landing gear's general management, as well as the design, engineering and sales & marketing activities are centralized in Longueuil

and support all business units. The complementary nature of these sites and their integrated management should, in the opinion of management, enable the Corporation to participate in programs of the highest caliber and enhance their efficiency, thereby improving its profitability and competitiveness.

The specialization of each business unit is as follow:

echnical

⁽¹⁾ Acquired on February 3rd 2014, as part of the acquisition of APPH (see section 2.3 above)

The Corporation also developed a design engineering and technical expertise with a team of approximately 120 employees dedicated to design activities. The design team is located at the engineering office in St-Hubert and at the Runcorn site in the U.K. The design team uses various softwares for modelling, designing and drafting as well as finite element analysis and dynamic analysis. The team is supported by test facilities which include among other things, drop test towers, environmental and fatigue testing equipment.

The Magtron facility is a provider of precision components and assemblies to the defence and aerospace industries. This site, through the use of its metal joining technology, also manufactures electronic enclosures, heat exchangers, and cabinets for airborne radar, electro-optic systems, and aircraft engine controls. Electro-mechanical assemblies include power dividers for naval radar systems and space payload interfaces for manoeuvre and retrieval systems. This site is located in Toronto, Ontario, and operates with 52 employees.

The following table contains a description of management positions, plant locations and other corporate management information as of March 31, 2014.

HÉROUX-DEVTEK INC.	Corporate Management

- (1) Mr. Stéphane Arsenault was appointed as Chief Financial Officer of the Corporation effective September 5th 2013. Mr. Arsenault was previously Assistant Chief Financial Officer and Vice-President, Control and Information Technology
- (2) Mr. Réal Bélanger previously Chief Financial Officer of the Corporation was appointed Executive Vice-President, Business Development and Special Projects following Mr. Arsenault's appointment.
- (3) Ms. Fanny D'Ambroise was appointed as Manager, Internal Audit and Conformity of the Corporation effective August 26th, 2013.
- (4) In April 2013, Mr. Jack Curley was appointed Vice-President, Central Region of Langing Gear and Mr. Frédérick Gagné was appointed Plant Manager of the Springfield plant.

Properties

The Corporation has fourteen sites, seven of which are located in Canada, four in the U.K. and three in the U.S. The following table briefly describes the features of each site:

Location	Size	Use	Status
Longueuil, Québec	8,956 sq. ft.	Corporate office, responsible for all financial and major business development decisions.	Leased
Longueuil, Québec (2 plants)	191,400 sq. ft.	Repair and overhaul activities and for the finishing and assembly of landing gear.	Owned
St-Hubert, Québec	28,000 sq. ft.	Engineering office providing technical expertise including a state-of-the-art test laboratory.	Owned
Laval, Québec	45,000 sq. ft.	Manufacture and assembly of actuators and manufacture small to medium landing gear components.	Owned
Kitchener, Ontario	99,000 sq. ft.	Manufacture medium to large complex landing gear components.	Owned
Springfield, Ohio	105,000 sq. ft.	Manufacture medium to large complex landing gear components.	Owned
Cleveland, Ohio	60,000 sq. ft.	Finishing and assembly of landing gear.	Owned
Toronto, Ontario (Magtron)	36,000 sq. ft.	Manufacture electronic enclosures, heat exchangers and cabinets.	Leased
Runcorn, U.K. ⁽¹⁾ (2 plants)	90,000 sq. ft.	Repair and overhaul activities, finishing and assembly of landing gear and design engineering.	Leased
Nottingham, U.K. ⁽¹⁾	48,000 sq. ft.	Manufacture small to medium landing gear components.	Owned
Bolton, U.K. ⁽¹⁾	15,000 sq. ft.	Design, manufacture, assembling of filter and testing of fluid filtration applications.	Leased
Wichita, Kansas ⁽¹⁾	63,000 sq. ft.	Repair and overhaul activities and manufacture hydraulic system and components.	Owned

⁽¹⁾Acquired on February 3rd 2014, as part of the acquisition of APPH (see section 2.3 above)

The Corporation acquired a land parcel of approximately 11.5 acres in Cambridge, Ontario on April 23^{rd,} 2014. This land parcel will be used by the Corporation for future network expansion.

Competition

The markets in which the Corporation is active are characterized by tough competition with respect to price, delivery deadlines and quality of products and services.

The Corporation ranks third in the world in the landing gear manufacturing market, as well as in the landing gear and servomechanism repair and overhaul market. It is also one of the largest independent providers of repair and overhaul services for military aircraft landing gear. Héroux-Devtek's main competitors are Messier-Dowty, UTAS and Liebherr.

Management is of the opinion that the Corporation has a number of advantages over its competitors, such as its flexible and cost-effective management structure, its renowned quality and the reputation of its products and services, its international presence (North America and Europe) and its strong design engineering team.

Marketing Approach

The majority of the Corporation's business comes from aircraft OEMs or second tier system suppliers. A critical success factor is to take part in aircraft development programs from the beginning. In the landing gear market, this participation starts at the design stage, allowing it to enter programs as a risk-sharing partner.

Sales opportunities are derived by continuous customer relationships, gathering market intelligence and attending various trade shows and operator conferences.

Customer Base

The Corporation serves a broad range of customers in the different markets in which it operates, mainly OEMs and second-tier system suppliers. The acquisition of APPH brought a significant number of new customers for the Corporation. Its commercial customers include Airbus Helicopter⁽¹⁾, Agusta-Westland⁽¹⁾, BAE Systems⁽¹⁾, Bell Helicopter Textron, Boeing, Bombardier Aerospace, Dassault Aviation, Embraer, Lockheed Martin, Messier-Bugatti-Dowty, Northrop-Grumman, Saab⁽¹⁾, Sikorsky, The Triumph Group and UTAS, among others. In the military sector, the Corporation's customers include the USAF, the U.S. Navy, the Canadian Air Force, and NATO countries.

Principal Customers

Héroux-Devtek's principal customers are the U.S. Department of Defence and UTAS. In fiscal 2014, sales to these principal customers represented approximately 37% of the Corporation's total sales. Principal customers are customers for whom the Corporation sales are 10% or more. No other customers accounted for more than 10% of the Corporation's consolidated sales in the fiscal year ended March 31, 2014.

Research and Development

The Corporation's research and development (R&D) costs for the year ended March 31, 2014 were incurred essentially by landing gear activities. They usually relate to specific development programs and are therefore included in these contracts' costs. The Corporation expects to invest about 5% of its total sales in R&D over the coming years.

3.4 Human Resources

The following table shows the total number of employees of the Corporation as at March 31, 2014 and 2013:

Product Line/Corporate Office	Number of Employees as at March 31,		
	2014	2013	
Landing Gear	1,307 ⁽¹⁾ 17 ⁽²⁾	979	
Bolton, U.K. (Filters)	17 ⁽²⁾	-	
Toronto (Magtron)	52	64	
Corporate Office	16	15	
Total	1,392	1,058	

⁽¹⁾Includes 378 new employees following the acquisition of APPH (see section 2.3 above)

3.5 Environmental Matters

The Corporation's activities are subject to environmental laws and regulations associated with risks to human health and the environment. The Corporation believes it is in substantial compliance with all applicable environmental laws and regulations. Certain cases of non-compliance identified during environmental audits were or are being corrected. These cases were reported to the government authorities when required. In all

⁽¹⁾ New customers following the acquisition of APPH

⁽²⁾ New employees following the acquisition of APPH (see section 2.3 above)

such cases, corrective measures were explored and solutions are being developed. An environmental policy has been implemented by the Corporation and an environmental management system is in place.

As part of its environmental management system, the Corporation performed Environmental Compliance Audits ("ECA") with external environmental auditors once every three years at all its manufacturing sites. Last ECAs were performed in fiscal year 2012. No non-compliance items represented unusual risks to the operations of the Corporation. Only one manufacturing plant of the Corporation was considered to be a higher risk, mainly due to the nature of its operations, which include various plating and chemical processes, and its current location, in a residential area. The management of the Corporation believes it has taken all appropriate action to maintain level of risk into acceptable limit. The next ECAs will be performed in fiscal year 2015. The audits will include the recently acquired APPH facilities.

The Corporation is conducting on an ongoing basis, repairs and replacement of equipment as required to upgrade the facility and minimize risks of contamination.

The Corporation is also subject to several environmental laws and regulations, particularly in regard to the various chemical products it utilizes in its processes. Changes in such regulations could require further capital investments in equipment and facilities.

The Corporation does not foresee making any expenditure outside the normal course of business to comply with environmental requirements and standards.

3.6 Risk Factors

The Corporation operates in industry segments that have a variety of risk factors and uncertainties. The Corporation's business, financial condition and results of operations could be materially adversely affected by any of the risks and uncertainties described below. The risks and uncertainties described below are not the only ones facing the Corporation. Additional risks and uncertainties not presently known to the Corporation or that the Corporation currently believes to be immaterial may also adversely affect its business. For other risks and uncertainties facing the Corporation, reference is made to the section entitled "Risk and Uncertainties" of the Corporation's Management's Discussion and Analysis for the fiscal year ended March 31, 2014 (filed on SEDAR at www.sedar.com), which section is hereby incorporated in, and forms part of, this annual information form.

Risk Associated with Business Activities

The activities conducted by the Corporation are subject to operational risks that include competition from other businesses, performance of key suppliers, product performance warranties and in particular, for proprietary products and major sales contracts, regulatory risks, successful integration of new acquisitions, dependence on key personnel and reliance on information systems, all of which could affect the Corporation's ability to meet its obligations.

However, the Corporation has implemented certain risk-mitigation strategies and controls, in light of these operational risks, which include the following:

- Processes to ensure proper bid approvals, planning, execution and use of quality standards at all stages of new design or built-to-print products and assemblies, and repair and overhaul services. This includes the risk assessment of achieving the targeted revenues (firm-fixed price contracts, escalation clauses, etc.) and related product costs as well as the development of longterm agreements and competitive bidding processes with main suppliers.
- Use of proper cash flow arrangements through the use of customer advances, with certain customers, and foreign exchange hedging.

The Corporation is subject to the risk of litigation in the ordinary course of business by employees, customers, suppliers, competitors, shareholders, government agencies, or others, through private actions, class actions, administrative proceedings, regulatory actions or other litigation. The outcome of litigation is difficult to assess or quantify. Claimants in these types of lawsuits or claims may seek recovery of very large or indeterminate amounts, and the magnitude of the potential loss relating to these lawsuits or claims may

remain unknown for substantial periods of time. Regardless of outcome, litigation could result in substantial costs to the Corporation. In addition, litigation could divert management's attention and resources away from the day- to-day operations of the Corporation's business.

Risks Associated with Contracts

Although the Corporation has diversified its customer base in recent years, its business volume with some customers remains significant. Should there be a significant deterioration in their financial position or should the Corporation lose certain orders from these customers, there could be a negative impact on its results. There are also specific risks relating to the Corporation's ability to perform and execute certain long term contracts involving the Corporation and its subsidiaries, including risks relating to the expansion of the Corporation's existing facility network as well as the Corporation's ability to successfully complete required investments in leading-edge machinery and equipment for component manufacturing and system assembly, in each case on a timely basis and within anticipated budgets. See also "Legal Proceedings".

Risks Associated with the Acquisition of APPH

The acquisition by the Corporation of APPH was significant and the Corporation may not be able to successfully integrate and combine the operations, personnel and technology of APPH with its pre-existing operations. If the integration is not managed successfully by management, the Corporation may not realize the growth opportunities that are anticipated from the acquisition. Even if the Corporation is able to integrate APPH's operations successfully, this integration may not result in the realization of the full benefits of the growth opportunities currently expected within the anticipated time frame or at all. The integration with APPH may also impose substantial demands on management. There is no assurance that improved operating results will be achieved as a result of the APPH acquisition.

Risks Associated with Raw Materials

In connection with its manufacturing and distribution activities, the Corporation procures different materials and components, as well as outside services, mainly in North America. Major items include forgings and various metals. With respect to raw materials, the Corporation purchases mainly aluminum, steel, and titanium. The ability of suppliers to meet performance, quality, and delivery schedules is extremely important. Although the Corporation often relies on a limited number of supply sources, it has been able to avoid significant shortages to date.

Although fairly stable in the recent years, the general volatility in the costs of raw material in world markets could negatively affect the profitability of the Corporation.

The Corporation purchases a significant amount of steel from a broad range of forging houses. In most cases, forging houses own the dies and the Corporation owns exclusivity rights to their use.

Depending on market conditions, delivery delays by forging houses may occur, thereby affecting the Corporation's ability to deliver finished parts on schedule. In the course of the Corporation's planning process, several measures have been taken to limit this risk, and, to date, the Corporation has been able to mitigate the effects of delays on deliveries.

Risks Associated with Foreign Operations and Sales

During the fiscal year ended March 31, 2014, 71 % of the Corporation's sales (compared to 69% for the preceding year) were made outside Canada, including 62 % in the U.S. Accordingly, the majority of sales made outside Canada are in U.S. currency. Management made every effort to hedge against the risks associated with U.S. exchange rates with forward foreign exchange contracts.

As at March 31, 2014, the Corporation had forward foreign exchange contracts totalling US\$127.4 million at a weighted-average rate of 1.0628 (Canadian dollar over U.S. dollar, "cad/usd") (US\$123.5 million at a weighted-average rate of 1.0325 cad/usd as at March 31, 2013) with the majority maturing over the next two fiscal years.

The following tables show the distribution of sales from continuing operations by country of origin and country of destination over the periods indicated.

Sales Originated From:	Fiscal Years ended March 31		
	(%)		
	2014 ⁽¹⁾	2013	2012
Canada	77	82	80
U.S.	18	18	20
U.K.	5	-	-
Total:	100	100	100

Sales Destined To:	Fiscal Years ended March 31 (%)		
	2014 ⁽¹⁾	2013	2012
Canada	29	31	27
U.S.	62	64	69
Other countries	9	5	4
Total:	100	100	100

⁽¹⁾ Includes sales from APPH acquisition (see section 2.3 above) from February 3rd 2014 to March 31st 2014.

Distribution of Sales Among the Corporation's Segments

The following table shows the Corporation's activity segments over the periods indicated, including the discontinued operations:

	Fiscal Years ended March 31 (in thousands of \$)		
	2014 ⁽¹⁾	2013	2012
Aerospace Segment			
Landing Gear Product Line	263,506	247,451	242,283
Other products	8,528	50,528	103,088
Sub-total	272,034	297,979	345,371
Industrial Segment			
Gas Turbine Components	-	5,425	14,748
Wind Turbine Components	-	-	359
Other Industrial Products		11,699	19,858
Sub-total	_	17,124	34,965
Total	272,034	315,103	380,336

⁽¹⁾ Includes sales from APPH acquisition (see section 2.3 above) from February 3rd 2014 to March 31st 2014.

As mentioned previously, following the Sale Transaction, the Corporation is now operating only in the Aerospace segment and is comprised essentially of the Landing Gear Product Line and Magtron and Bolton operations.

	Fiscal Years ended March 31 (in thousands of \$)		
	2014 ⁽¹⁾ 2013 2012		
Continuing operations	272,034	257,022	253,521
Discontinued operations		58,081	126,815
Total	272,034	315,103	380,336

⁽¹⁾ Includes sales from APPH acquisition (see section 2.3 above) from February 3rd 2014 to March 31st

For fiscal 2014, Military related sales from continuing operations represented 55 % (57% for fiscal 2013 and 63% for fiscal 2012) of the Corporation's total consolidated sales.

ITEM 4: DIVIDENDS

The Corporation has declared in November 2012 and paid on December 19, 2012 to shareholders of record on November 20, 2012, a special cash distribution of \$5.00 per Common Share. The special cash distribution of \$5.00 per Common Share was composed of a capital reduction and repayment of \$2.70 per Common Share and a special cash dividend of \$2.30 per Common Share.

Over the last three fiscal years, the Corporation did not pay any dividends on its First Preferred Shares and Second Preferred Shares. The Corporation does not intend to pay dividends on any of its securities in the foreseeable future.

Subject to the rights of the holders of shares of any other class or particular series ranking in priority to the Common Shares, the holders of the Common Shares are entitled to receive all dividends declared by the Corporation. The First Preferred Shares and the Second Preferred Shares shall rank prior to the Common Shares and the First Preferred Shares shall rank prior to the Second Preferred Shares in respect of the payment of dividends.

ITEM 5: DESCRIPTION OF CAPITAL STRUCTURE

Authorized Share Capital

The Corporation's authorized share capital consists of an unlimited number of Common Shares, 31,620,482 of which were outstanding as at March 31, 2014, and an unlimited number of First Preferred Shares and Second Preferred Shares (collectively the "Preferred Shares"), none of which were outstanding as at March 31, 2014.

Preferred Shares

The Preferred Shares are issuable at any time in one or more series as the Corporation's Board of Directors may determine. The Preferred Shares, when issued, shall have preference over the Common Shares with respect to the payment of dividends and return of capital. The Second Preferred Shares shall rank junior to the First Preferred Shares with respect to the payment of dividends and return of capital. Subject to the provisions of the Business Corporations Act (Québec), the holders of Preferred Shares are neither entitled to receive notice of or attend any meeting of shareholders of the Corporation, nor to vote at any such meeting.

Common Shares

Subject to the rights, privileges, restrictions and conditions applicable to the Preferred Shares as a class, the Common Shares entitle their holders: (i) to vote, on the basis of one vote per Common Share held, whenever a shareholders' vote is held; (ii) to receive any dividend declared by the Corporation other than dividends

declared on the Preferred Shares; and (iii) to share proportionately in the remaining assets of the Corporation in the event of its liquidation or dissolution.

ITEM 6: MARKET FOR SECURITIES

The Common Shares are listed and posted for trading on the TSX under the symbol "HRX". The following table indicates the price ranges at the close of the market on the TSX and volume traded on the TSX on a monthly basis for each month of the most recently completed financial year:

		V/ 1
		Volume
High	Low	(Common Shares)
8.25	7.23	669,569
8.08	7.23	893,372
8.59	7.77	698,769
8.75	8.23	308,818
8.65	8.00	493,431
9.46	8.02	757,819
9.63	9.25	1,211,937
10.91	8.67	2,322,382

Prior Sales

For additional information with respect to the prior sales during the fiscal year 2014 of each class of securities not listed, please refer to the section entitled "Capital Stock, Stock Option and Stock Purchase Plans" in the Management's Discussion and Analysis of the Corporation for the fiscal year ended on March 31, 2014 on the Corporation's Web site at www.herouxdevtek.com or on SEDAR at www.sedar.com.

ITEM 7: ESCROWED SHARES AND SHARES SUBJECT TO CONTRACTUAL RESTRICTION ON TRANSFER

To the knowledge of the Corporation, there are no securities of the Corporation which are being currently held in escrow.

Pursuant to a shareholders' agreement between Gilles Labbé, 2635-6246 Québec Inc., Caisse de dépôt et placement du Québec (the "Caisse") (collectively the "Shareholders") and the Corporation dated August 29, 1989, as amended on December 7, 1994 by supplemental agreement between the Shareholders, 2945-0228 Quebec Inc. (a corporation wholly-owned by Gilles Labbé) and the Corporation (the "Shareholders Agreement"), the Shareholders enjoy rights of first refusal among themselves. Notwithstanding certain specific exception, pursuant to the right of first refusal, as long as the Caisse's participation in the Corporation is not less than 10%, any shareholder intending (i) to accept an offer from a third party to purchase its shares; (ii) to offer to sell its shares to a third party; or (iii) to solicit potential offerors to purchase its shares must, in priority, and under the same terms and conditions, offer its shares to the other Shareholders. The Corporation has granted rights of pre-emption in favor of the Shareholders. The Shareholders Agreement also provides that the parties must exercise the voting rights attached to their shares so as to cause a certain number of nominees of the Caisse (which number is dependent on the Caisse's participation in the share capital of the Corporation and is never to be less than one) to be elected to the Board of Directors of the Corporation. The Shareholders Agreement further provides that the approval of the Shareholders shall be required for certain decisions of the Corporation relating inter alia to: changes in the nature of the operations of the Corporation; amendments to the Corporation's Articles or changes to its capital structure; the granting of financial assistance; and, in certain circumstances, the distribution of assets

by the Corporation, the approval of capital expenditures, the declaration of dividends and investments in non-related businesses and acquisitions.

ESCROWED SECURITIES AND SECURITIES SUBJECT TO CONTRACTUAL RESTRICTION ON TRANSFER

Designation of class	Number of securities held in escrow or that are subject to a contractual restriction on transfer	Percentage of class
Common Shares	8,144,421	25.8%

ITEM 8: DIRECTORS AND EXECUTIVE OFFICERS

The names, provinces and countries of residence of the directors and executive officers of the Corporation, their principal occupations and the year in which each director first became a director are set out below.

Directors

Each of the directors has served continuously as a director since the date he was first elected or appointed. The present term of each director will expire immediately prior to the election of directors at the next Annual Meeting of Shareholders, which is scheduled to be held on August 7, 2014.

Name	Principal Occupation during the five preceding years	Director Since	Number of Common Shares held as at March 31, 2014
Paule Doré ⁽¹⁾ Québec, Canada	Corporate Director. From 2006 to 2009, Special Advisor to the Founder and Executive Chairman of the Board of CGI Group Inc. (provider of end-to-end IT and business process services).	2010	17,000 ⁽³⁾
Jean-Louis Fontaine ⁽¹⁾ Québec, Canada	Vice-Chairman of the Board and director, Bombardier Inc. (diversified manufacturer of transportation equipment).	1990	48,000 ⁽⁴⁾
Gilles Labbé Québec, Canada	President and Chief Executive Officer, Héroux- Devtek	1985	3,907,238 ⁽⁵⁾
Louis Morin ⁽²⁾ Québec, Canada	Since June 2010, President of Busrel Inc., North-American supplier of promotional items. Up to March 31, 2009, Vice-President and Chief Financial Officer of Quebecor Inc. (Quebecor is one of Canada's largest media companies).	2008	20,000
James J. Morris ⁽²⁾ Washington, U.S.A.	Corporate Director and consultant.	2013	10,000
Réal Raymond ⁽¹⁾ Québec, Canada	Corporate Director and Chairman of the Board of Héroux-Devtek.	2010	17,000
Brian A. Robbins ⁽²⁾ Ontario, Canada	President and Chief Executive Officer, Exco Technologies Limited (supplier of moulded and extruded parts for the automotive and industrial markets).	2000	40,000 ⁽⁶⁾

- (1) Member of the Human Resources and Corporate Governance Committee.
- (2) Member of the Audit Committee.
- (3) These shares are held by Fiducie Paule Doré, a trust controlled by Mrs. Paule Doré.
- (4) 4,000 Common Shares included in this number are held by Gestion Jean-Louis Fontaine Inc., a company controlled by Mr. Jean-Louis Fontaine.

- (5) 3,902,738 Common Shares included in this number are held by 2945-0228 Québec Inc., a company controlled by Mr. Gilles Labbé.
- (6) These shares are held by 555319 Ontario Limited, a company wholly-owned by Mr. Brian A. Robbins and family.

Subsequent to year-end, Mr. Andrew John Stevens was appointed as a director of the Corporation and Audit Committee member. Mr. Stevens is a corporate director based in the U.K.

Executive Officers

Executive Officer's Name	Position in the Corporation	Number of Common Shares held as at March 31, 2014	
Gilles Labbé	President and Chief Executive Officer Héroux-Devtek Inc.	3,907,238 ⁽¹⁾	
Réal Bélanger	Executive Vice-President, Business Development and Special Projects Héroux-Devtek Inc.	210,492	
Martin Brassard	Vice-President, General Manager Landing Gear	131,334	
Stéphane Arsenault	Chief Financial Officer	23,386 ⁽²⁾	

- (1) 3,902,738 Common Shares included in this number are held by 2945-0228 Québec Inc., a company controlled by Mr. Gilles Labbé.
- (2) 1,100 Common Shares included in this number are held by Marisa Alfieri, the spouse of Mr. Stéphane Arsenault.

As at March 31, 2014, the directors and executive officers of the Corporation, as a group, beneficially own, directly or indirectly, or exercise control or direction over 4,272,450 Common Shares representing approximately 13.5% of the outstanding Common Shares of the Corporation.

Cease Trade Orders, Bankruptcies, Penalties or Sanctions

To the Corporation's knowledge, no director or executive officer of the Corporation is, at the date of this annual information form, or has been, within 10 years before the date of the annual information form, a director, chief executive officer or chief financial officer of any company that, while that person was acting in that capacity, (i) was the subject of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days, or (ii) was subject to an event that resulted, after the director, chief executive officer or chief financial officer ceased to be a director or executive officer, in the company being the subject of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days except for Louis Morin who was executive officer of Quebecor Inc. when the Autorité des marchés financiers imposed a management cease trade order from April 2 to May 20, 2008, in the context of the late filing of Quebecor's 2007 annual financial statements and related management's discussion and analysis following the filing of Quebecor World Inc. for creditor protection under the Companies' Creditors Arrangement Act (Canada).

To the Corporation's knowledge, no director or executive officer of the Corporation or a shareholder holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation is, at the date of this annual information form, or has been, within 10 years before the date of the annual information form, a director or executive officer of any company that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets.

In addition, to the knowledge of the Corporation, no director or executive officer of the Corporation or a shareholder holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation has, within 10 years before the date of this annual information form, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject or instituted any

proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the directors, executive officers or shareholders.

Furthermore, to the knowledge of the Corporation, no director or executive officer of the Corporation or a shareholder holding a sufficient number of securities of the Corporation to affect materially the control of the Corporation has been subject to any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority, or has been subject to any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor in making an investment decision.

ITEM 9: INTEREST OF EXPERTS

Ernst & Young LLP are the independent auditors who prepared the Auditors' Report to the shareholders of the Corporation under Canadian generally accepted auditing standards. Ernst & Young LLP has confirmed to the Corporation that it is independent within the meaning of the Rules of Professional Conduct of the *Ordre des comptables professionnels agréés du Québec*. These rules are equivalent or similar to Rules of Professional Conduct applicable to chartered professional accountants in the other provinces of Canada.

ITEM 10: THE AUDIT COMMITTEE

The Board of Directors has reviewed the requirements provided under National Instrument 52-110 - Audit Committees (or in Québec, Regulation 52-110) ("52-110") and is of the view that the Corporation complies with such practices. The following discussion addresses the Corporation's position with the requirements of 52-110 and has been prepared in conformity with Form 52-110F1 - Audit Committee Information Required in an AIF.

The Audit Committee's Charter

The Board of Directors of the Corporation has established an audit committee (the "Audit Committee"). The mandate of the Audit Committee adopted by the Board of Directors of the Corporation in 1996 and revised yearly is attached as Schedule A to this annual information form.

Composition of the Audit Committee

The Audit Committee is composed of three members being, for the fiscal year ended March 31, 2014, Mr. Louis Morin, Mr. James J. Morris and Mr. Brian A. Robbins. Each of the Audit Committee members is independent and financially literate within the meaning of 52-110, which means that each of them (i) has no direct or indirect material relationship with the Corporation, other than being one of its directors and (ii) has the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Corporation's financial statements.

Relevant Education and Experience

Each member of the Audit Committee has developed considerable experience and expertise related to financial and accounting matters which are relevant to the performance of their respective responsibilities as an Audit Committee member. More particularly, each of them has developed and acquired (i) an understanding of the accounting principles used by the Corporation to prepare its financial statements; (ii) the ability to assess the general application of such accounting principles in connection with the accounting for estimates, accruals and reserves; (iii) experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the Corporation's financial statements, or experience actively supervising one or more persons engaged in such activities; and (iv) an understanding of internal controls and procedures for financial reporting.

The following is a description of the education and experience of each Audit Committee member that is relevant to the performance of their responsibilities as Audit Committee members:

Louis Morin

Mr. Morin is a director of the Corporation and was appointed as a member of the Audit Committee in March 2008. His principal occupation is President of Busrel Inc., a North-American supplier of promotional items, since June 2010. Up to March 31, 2009, he was Vice-President and Chief Financial Officer of Quebecor Inc. since January 15, 2007. From December 2003 until January 2006, he was the Chief Financial Officer of Bombardier Recreational Products Inc. From April 1999 until February 2003, Mr. Morin was the Senior Vice-President and Chief Financial Officer of Bombardier Inc. where he was working since 1982.

Mr. Morin holds a Bachelor's and a Master's degrees in business administration from l'École des Hautes Études Commerciales (HEC) and is a Certified Public Accountant ("CPA").

James J. Morris

Mr. Morris is a director of the Corporation and was appointed as a member of the Audit Committee on August 1, 2013. He currently acts as Corporate Director and consultant for different companies. Up to December 31, 2006, he was Vice President Engineering and Manufacturing for Boeing Commercial Airplanes. He is a member of the Audit Committee and Chair of the Strategy & Technology Committee of Esterline Technologies Corporation. The common shares of Esterline Technologies Corporation are traded on the New York Stock Exchange NYSE. Mr. Morris' current professional affiliations include the American Institute of Aeronautics and Astronautics and Royal Aeronautical Society.

Mr. Morris received his bachelors and masters degrees in Mechanical and Aerospace Engineering from Princeton University. He also holds a masters degree in Management from Stanford University. In 2006 he was named a Fellow of the Royal Aeronautical Society.

Brian A. Robbins

Mr. Robbins is a director of the Corporation and a member of the Audit Committee since 2000. His principal occupation is currently as President and Chief Executive Officer of Exco Technologies Limited. He is a former director of Ontario Power Generation Inc., TecSyn International, Inc., Telepanel Systems Inc., Allgoods Inc., Noma Industries Inc. and Dofasco Inc.

Mr. Robbins is currently a member of the board of directors of AirBoss of America Corp. and Exco Technologies Limited.

Mr. Robbins holds a Bachelor's Degree in applied science from the University of Waterloo, Ontario and is a P.Eng. in Mechanical Engineering. He is a member of the Association of Professional Engineers of Ontario.

Pre-Approved Policies

The Board of Directors of the Corporation and the Audit Committee have adopted certain policies with respect to services rendered by external auditors.

Specific services may be rendered by the external auditors of the Corporation which are not incompatible, as to their nature, with the maintenance of their professional independence. Certain of these services reflect the statutory role of the external auditors and are grouped under "Audit Services" below. Other services under "Audit Related" and "Taxation Services" below can be rendered by the external auditors as well as other service providers, at Corporation management's discretion. Certain types of services listed under "Prohibited Services" below generally cannot, except in limited cases, be provided by external auditors without impairing their professional independence.

Audit Services

- Audit of the Corporation's annual consolidated financial statements;
- Audit of the annual financial statements of certain related entities or groups;
- Review of the Corporation's annual information form, management, discussion and analysis, management proxy circular and other annual filing documents;
- Read of quarterly consolidated financial statements of the Corporation;

- Review of the Corporation's prospectuses or other financing documents and issuance of appropriate consent, comfort or other required letters to interested parties;
- Accounting research and consultations on the application of IFRS;

Audit Related Services

- Audit of the annual financial statements of the employee benefit plans;
- Special reports to third parties required to comply with various contractual or other obligations of the Corporation or any of its subsidiaries or affiliates;
- Special audits on control procedures;
- Information systems reviews not performed in conjunction with the Audit;
- Due diligence services to assist management in the context of business investment or divestiture decisions;
- Advisory services in preparation for compliance under National Instrument 52-109;

Taxation Services

- Preparation and/or review of income or other tax returns of the Corporation's domestic or foreign business units;
- Consultations with respect to income tax compliance or planning with domestic or foreign jurisdictions, including federal, provincial, state and capital taxes; international tax financing, structuring and repatriation strategies; loss utilization strategies; advice with respect to research and development expenditures;
- Consultations with respect to transfer pricing risk and assessment;
- Executive compensation plans including pensions, stock options, and deferred compensation plans;
- Expatriate tax compliance and planning, including tax return preparation services with respect thereto;
- Foreign office tax advice regarding international tax projects and co-ordination thereof;
- Discussions regarding new tax developments and responses to tax queries as they arise;
- Support regarding tax authority audits;
- Commodity tax advice.

Other Services

Translation of financial information, including financial statements, management, discussion and analysis, press release, annual and quarterly reports.

Other Services not Specifically Prohibited

While the possibility of other services being rendered by the Corporation's external auditors is not in and of itself excluded, such services will be rendered only on the specific approval of the Audit Committee or one of its designated members.

Prohibited Services

Certain services are considered to be incompatible with the objective of preserving the independence of external auditors and therefore are prohibited. Such services, with some exceptions, include the following:

- Bookkeeping or other services related to the accounting records or financial statements of the Corporation.
- Expert services, litigation support unrelated to the audit.
- Financial information systems design and implementation.
- Appraisal or valuation services, fairness opinions or contribution-in-kind reports.
- Actuarial services.

- Internal audit outsourcing services.
- Management functions.
- Human resources services.
- Broker-dealer, investment adviser or investment banking services.
- Legal Services and any other advocacy services.
- Preparation of journal entries and source documents.
- IT Services.
- Corporate finance and similar activities.

External Auditors Service Fees

The following are the aggregate fees billed by the Corporation's external auditors in each of the last two fiscal years by category of services provided to the Corporation by said auditors.

	Fiscal Year ended March 31		
	2014	2013	
Audit Fees ⁽¹⁾	\$560,940	\$339,100	
Audit-Related Fees ⁽²⁾	278,911	66,153	
Other Fees ⁽³⁾	12,020	18,444	
Income Tax Fees ⁽⁴⁾	168,299	88,296	
Total	\$1,020,170	\$511,993	

- (1) Audit fees were billed for professional services rendered for the audit of the Corporation's consolidated financial statements and quarterly reads of the Corporation's quarterly consolidated financial statements. The increase this year, compared to last year, is explained by the fees incurred in fiscal 2014 for the audit of APPH
- (2) Audit-related fees were billed for assurance and related services that are reasonably related to the performance of the audit or review of the annual consolidated financial statements and are not reported under the audit fee line above. The increase this year, compared to last year, is explained by the fees incurred in fiscal 2014 for the due diligence work performed for the acquisition of APPH.
- (3) Other fees are billed for services other than the audit fees, audit-related fees and income tax fees. These services consisted primarily of translation services.
- (4) Income tax fees were billed for the review of income tax returns and consultations. The increase this year, compared to last year, is explained by the fees incurred in fiscal 2014 for the due diligence work performed for the acquisition of APPH.

ITEM 11: LEGAL PROCEEDINGS

Management of the Corporation is not aware of any legal proceeding or litigation outstanding, threatened or pending as of the date hereof by or against the Corporation or relating to its business which would be material to an existing or potential holder of Common Shares except Goodrich Corporation's request for arbitration to the ICC International Court of Arbitration against Devtek Aerospace Inc. relating to the interpretation of a non-compete covenant contained in an agreement between Goodrich Corporation, member of UTAS group, and Devtek Aerospace Inc. The disagreement involves the Corporation's planned activities relating to the manufacturing of pistons in support of the long-term contract on the B-777 program with Boeing. The Corporation disagrees with Goodrich Corporation's position and firmly believes that it is acting in conformity with its agreements. At of the present date, no amount is claimed by Goodrich Corporation. While the Corporation cannot predict the final outcome of this arbitration, the Corporation intends to defend its position in this matter and has strong and serious grounds of defence to oppose within the arbitration process.

ITEM 12: INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

To the knowledge of the Corporation, there has not been any material interest, direct or indirect, of any director or executive officer of the Corporation, or a person or company that is the direct or indirect beneficial owner of, or who exercises control or direction over, more than 10 percent of any class or series of the outstanding voting securities of the Corporation, or any associate or affiliate thereof, within the three most recently completed financial years, that has materially affected the Corporation or is reasonably expected to materially affect the Corporation.

ITEM 13: TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar for the Common Shares of the Corporation is Computershare Trust Company of Canada at its place of business in the city of Montréal, Québec.

ITEM 14: MATERIAL CONTRACTS

The Corporation has no material contracts other than its Amended and Restated Credit Agreement entered into by, among others, the Corporation and a group of lenders. The Corporation has increased its credit facility under the Agreement to \$200 million in March 2014. This credit facility allows Héroux-Devtek to borrow (either in Canadian or US currency equivalent) from a group of banks for working capital, capital expenditures and other general corporate purposes including acquisitions. This credit facility is secured by all assets of the Corporation, is subject to certain restrictive covenants and corporate guarantees granted by its main subsidiaries (which have also provided security over their assets) and matures on March 16, 2019.

ITEM 15: ADDITIONAL INFORMATION

Additional information including directors' and officers' remuneration and indebtedness, principal holders of the Corporation's securities and, options to purchase securities where applicable, is contained in the Corporation's Management Proxy Circular dated June 20, 2013 and prepared in connection with the Annual Meeting of Shareholders of the Corporation, held on August 1, 2013. Additional information is provided in the Corporation's comparative consolidated financial statements and management, discussion and analysis for its most recently completed fiscal year.

The Corporation shall provide to any person or company, upon request to the Corporation's Corporate Secretary, at Héroux-Devtek Inc., Suite 658, East Tower, 1111 Saint-Charles Street West, Longueuil, Québec, J4K 5G4, a copy of:

- i. this annual information form together with one copy of any document (or the relevant pages of any document) incorporated by reference therein;
- ii. the comparative consolidated financial statements of the Corporation for its most recently completed fiscal year, together with the accompanying report of the auditors thereon, and one copy of any interim condensed consolidated financial statements of the Corporation that has been filed subsequent to the consolidated financial statements for its most recently completed fiscal year; and
- iii. the Corporation's Management Proxy Circular with respect to the Corporation's most recent shareholders' meeting that involved the election of directors;

provided that the Corporation may require the payment of a reasonable charge if the request is made by a person or a company who or which is not a security holder of the Corporation.

Additional information relating to the Corporation may be found on SEDAR at www.sedar.com.

SCHEDULE A - MANDATE OF THE AUDIT COMMITTEE

1. Mission

- 1.1 The Audit Committee assists the Board of Directors in its general management responsibilities of the Corporation by:
 - selecting and recommending the external auditors and reviewing their independence and effectiveness;
 - b) reviewing:
 - (i) the financial statements;
 - (ii) the processes for presenting financial information;
 - (iii) the internal controls;
 - (iv) the audit processes;
 - (v) the management information systems; and
 - (vi) the financial risk management processes and control methods for managing such risks;

for the purpose of determining the integrity and effectiveness thereof; and

- c) serving as intermediary between the Board of Directors and the independent oversight functions (internal and external auditing).
- 1.2 The Corporation's external auditors are responsible for reporting to the Board of Directors and to the Audit Committee acting as the shareholders' representatives, and these shareholders' representatives have the ultimate power and responsibility of choosing, evaluating and, where necessary, recommending the replacement of the external auditors.
- 1.3 The Committee fulfills its responsibilities to the Board by carrying out the duties set forth in section 10 of this Mandate.
- 1.4 Although the Audit Committee has the powers and responsibilities set forth in this Mandate, the role of the Audit Committee is oversight. The members of the Audit Committee are not full-time employees of the Corporation and may or may not be accountants or auditors by profession and, in any event, do not serve in such capacity on the Audit Committee. Consequently, it is not the duty of the Audit Committee to conduct audits or to determine that the Corporation's financial statements and disclosures are complete and accurate and are in accordance with the International Financial Reporting Standards ("IFRS") and applicable rules and regulations. These are the responsibilities of management and the external auditors.

2. Composition

- 2.1 The Committee is comprised of at least three (3) members appointed annually by the Board of Directors from among the Corporation's Directors.
- 2.2 Every Committee member shall be independent within the meaning of Regulation 52-110.
- 2.3 No officer or employee of the Corporation or of a subsidiary of the Corporation shall be a member of the Committee.

2.4 Every Committee member shall be financially literate within the meaning of Regulation 52-110, i.e. shall have the ability to read and understand a set of financial statements that present a breadth of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Corporation's financial statements.

At least one Committee member shall have "related accounting or financial expertise" acquired either through previous work experience in finance or accounting, through the required professional certification in accounting, or through any other comparable experience or training giving him financial sophistication, such as being or having been a chief executive officer or chief financial officer of a company, or having held another position with a company as a senior executive with financial oversight responsibilities. This member shall have the ability to analyze and interpret a complete set of financial statements, including the accompanying notes, in accordance with IFRS.

3. Chairperson

- 3.1 The chair of the Committee is appointed by the Board of Directors. Where the chair is absent or unable to attend a meeting, the meeting shall be chaired by a member chosen by the Committee.
- 3.2 Subject to a contrary decision by the Board of Directors, members who have sat on the Committee for two years are eligible for appointment as Committee chairperson.
- 3.3 Subject to a contrary decision by the Board of Directors, the mandate of the Committee chairperson granted to a Committee member shall not exceed five years.
- 3.4 The Committee chairperson may make suggestions to the Chairman of the Board concerning the content of the agendas of certain meetings of the Board of Directors, where he considers it appropriate or necessary to do so.

4. Secretary

The Committee chairperson appoints a person who does not need to be a member of the Committee, to act as Committee secretary.

5. Holding and calling of meetings

- 5.1 The Audit Committee meets at least once per quarter and the Committee's meetings are held on the dates and at the time and place fixed by the Board of Directors. The Committee members shall be notified annually in writing of the dates, times and places of the Committee meetings, without any other notice being required.
- 5.2 An off-schedule meeting may be called at any time by the Committee chairperson, the Chairman of the Board, the President and Chief Executive Officer, one of the members of the Committee, the Chief Financial Officer, the Secretary or an assistant secretary of the Corporation, and by the external auditors and auditors in charge of the internal audit function.

A notice stipulating the purpose, place, date and time of every off-schedule meeting shall be sent to each of the Committee members by mail or by any other means of telephone or electronic communication at least twenty-four (24) hours before the scheduled time and date of the meeting.

Off-schedule meetings of the Committee may be held without notice when all Committee members are present or when absent members give written waiver of notice of such meeting.

- 5.3 The Committee meetings may be held by telephone or by any other means enabling all members to communicate adequately and simultaneously with each other. In such case, the persons participating in a meeting by telephone or by any other means of communication are deemed to be present at the meeting.
- 5.4 The external auditors are entitled to receive the notices of the Committee's meetings and to be heard at such meetings.
- 5.5 The Committee may call a meeting of the Board of Directors to study issues of interest to the Committee.
- 5.6 The Committee members shall meet in closed sessions, at least once a year, under the direction of the Committee chairperson.

6. Ouorum

- 6.1 Quorum for the Committee shall be a majority of the Committee members.
- 6.2 There shall be a quorum at every meeting in order for the Committee members to validly conduct proceedings and make decisions.
- 6.3 Subject to sections 6.1 and 6.2 above, the subjects submitted for consideration to every Committee meeting requiring a decision shall be approved by a majority of votes of the members present.

7. Minutes

- 7.1 The secretary shall keep the minutes of every Committee meeting, duly approved by it, in a register especially for this purpose.
- 7.2 The minutes of every Committee meeting, duly approved by it, shall be attached to the agenda of a subsequent meeting of the Board of Directors for its information. The Committee chairperson shall make a verbal report of the proceedings of every Committee meeting at a subsequent meeting of the Board of Directors.

8. Vacancy

Vacancies on the Committee shall be filled by the Board of Directors, where it considers appropriate. A failure to fill a vacancy shall not invalidate the Committee's decisions provided that there is a quorum.

9. Hiring of external advisors

The Audit Committee has the authority to retain the services of expert advisors at the Corporation's expense. In case of an emergency, this responsibility is vested in the Committee chairperson. The Committee may request any officer or employee of the Corporation, its outside legal counsel or its internal or external auditors to attend an Audit Committee meeting or meet any of its members or advisors.

The Audit Committee shall notify the Board of Directors on the extent of the financing required to pay for the compensation of the independent expert advisors retained to advise the Committee.

10. Duties and responsibilities

The Committee's duties are as follows:

10.1 Internal control

- 10.1.1 review the mandate of the internal audit function on an annual basis and ensure that it has the resources necessary to fulfill its mandate and the responsibilities set for it;
- 10.1.2 if the internal audit function has been outsourced in whole or in part to an external consulting firm, make recommendations to the Corporation's Board of Directors on the appointment of such consultants and their compensation;
- 10.1.3 require management to set up and maintain appropriate internal control policies and mechanisms, and review, evaluate and approve such policies and mechanisms;
- 10.1.4 evaluate the effectiveness of the Corporation's internal control policies and mechanisms with the Chief Financial Officer, or any other officer or employee of the Corporation exercising responsibility for the internal audit function;
- 10.1.5 review the report(s) of the internal audit group on a quarterly or annual basis and ensure that the necessary measures are taken to follow up on the suggestions arising from such report(s);
- 10.1.6 review the recommendations of the Corporation's management and recommend to the Board of Directors the appointment or removal of an officer responsible for the internal audit function of the Corporation;
- 10.1.7 review and approve the annual internal audit plan and ensure the independence and effectiveness of this function;
- 10.1.8 require that the internal audit function be free of any influence which could interfere with its ability to carry out its responsibilities in an objective manner and, to this end, obtain disclosure from management of the services other than internal auditing provided to the Corporation by the consultants to whom this function has been outsourced;
- 10.1.9 evaluate the overall performance of the external consultants to whom the internal audit function has been outsourced, whether in whole or in part, including the other services rendered by these consultants, and analyze the effect of such services on their independence;
- 10.1.10 ensure that there is effective cooperation between internal auditing and the external auditors of the Corporation;
- 10.1.11 meet, in the absence of management, with the Corporation's officer in charge of the internal audit function, or the external consultant to whom this function has been outsourced;
- 10.1.12 review any management representation letters on the internal financial systems and controls addressed to the external auditors;
- 10.1.13 review and comment to the Board of Directors on all related-party transactions;
- 10.1.14 review any change in the Corporation's code of ethics;
- 10.1.15 review the recommendations made by the regulatory bodies or external or internal auditors and report to the Board of Directors;

- 10.1.16 establish procedures for the receipt, retention and treatment of complaints received by the Corporation regarding accounting, internal accounting controls, or auditing matters and for the confidential, anonymous submission by employees of the Corporation of concerns regarding questionable accounting or auditing matters;
- 10.1.17 review and approve the Corporation's hiring policies regarding partners, employees and former partners and employees of the Corporation's, current or former, external auditors that meet the CICA Rules of Professional Conduct;

10.2 External auditors

- 10.2.1 submit recommendations to the Corporation's Board of Directors for the appointment and compensation of the external auditors;
- 10.2.2 review and discuss the external auditors' detailed report on all the factors influencing their independence and objectivity; make recommendations for measures to be taken by the Board of Directors to ensure the independence of the external auditors;
- 10.2.3 pre-approve all non-audit services to be provided to the Corporation or its subsidiaries by the auditors and, ensure that the external auditors shall not provide the following services to the Corporation:

Prohibited Non-Audit Services

- Bookkeeping or other services related to the accounting records or financial statements of the Corporation.
- Expert services, litigation support unrelated to the audit.
- Financial information systems design and implementation.
- Appraisal or valuation services, fairness opinions or contribution-in-kind reports.
- Actuarial services.
- Internal audit outsourcing services.
- Management functions.
- Human resources services.
- Broker-dealer, investment adviser or investment banking services.
- Legal Services and any other advocacy services.
- Preparation of journal entries and source documents.
- IT Services.
- Corporate finance and similar activities.
- 10.2.4 review the nature and scope of the work of the Corporation's external auditors;
- 10.2.5 meet with the external auditors and management to discuss the annual financial statements or transactions which may be detrimental to the sound financial situation of the Corporation;
- 10.2.6 discuss with the external auditors not only the acceptability but also the quality of the accounting principles followed by the Corporation in its financial reports;
- 10.2.7 review the Corporation's guidelines for awarding professional services contracts to the external auditors outlining the criteria and levels of authorization required for types of services other than auditing which the external auditors are authorized to offer the Corporation;
- 10.2.8 review the annual letter of recommendation on internal control by the Corporation's external auditors and follow up on the measures subsequently taken by management;

- 10.2.9 meet the Corporation's external auditors on a regular basis, in the absence of the management;
- 10.2.10 oversee the work of the external auditors, including the auditing services and non-auditing services, and analyze the effect of these services on the auditors' independence and including the resolution of disagreements between management and the external auditors regarding financial reporting;
- 10.2.11 determine that the external auditors audit firm has a process in place to address the rotation of the lead audit partner and other audit partners serving the account as required under the CICA independence rules; and
- 10.2.12 determine that the external auditors are a Public Accounting Firm that has entered into a Participation Agreement as such terms are defined in *Regulation 52-108 respecting Auditor Oversight* and that at the time of their report on the annual financial statements of the Corporation, they are in compliance with any restrictions or sanctions imposed by the Canadian Public Accountability Board.

10.3 Financial information

- 10.3.1 review the Corporation's quarterly and annual consolidated financial statements after the review (or read) or audit thereof by the external auditors, and recommend their approval to the Corporation's Board of Directors; review the unaudited (or internally prepared by management) financial statements of certain subsidiaries as appropriate;
- 10.3.2 obtain an annual report from management, which may be in either oral or written form, on the accounting principles used in the preparation of the Corporation's financial statements, including those policies for which management is required to exercise discretion or judgment regarding the implementation thereof;
- 10.3.3 annually review separately with each of management, the external auditors and the internal audit group (a) any significant disagreement between management and the external auditors or the internal audit group in connection with the preparation of the financial statements, (b) any difficulties encountered during the course of the audit, including any restrictions on the scope of work or access to required information and (c) management's response to each;
- 10.3.4 annually or periodically, as appropriate, review any significant changes to the Corporation's accounting principles and financial disclosure practices as suggested by the external auditors, management or the internal audit group; review with the external auditors, management and the internal audit group, at appropriate intervals, the extent to which any changes or improvements in accounting or financial practices, as approved by the Audit Committee, have been implemented;
- 10.3.5 review all the investments and transactions which may be detrimental to the Corporation's sound financial situation, when they are brought to its attention by the external auditors or an officer;
- 10.3.6 review and recommend the approval to the Board of Directors of the informational documents containing financial information, whether audited or unaudited, in particular, management's analysis of the financial situation and operating results, the annual information form and the press releases concerning the publication of the Corporation's quarterly and annual consolidated financial statements;

- 10.3.7 ensure that adequate procedures are in place for the review of the Corporation's public disclosure of financial information extracted or derived from the Corporation's financial statements and periodically assess the adequacy of those procedures;
- 10.3.8 review and discuss with management all material off-balance sheet transactions, arrangements, obligations (including contingent obligations), commitments and other relationships of the Corporation or any of its subsidiaries with unconsolidated entities or other persons, that may have a material current or future effect on the financial condition, changes in the financial condition, results of operations, liquidity, capital resources or significant components of revenues or expenses;
- 10.3.9 enquire with management concerning any significant changes adopted by bodies such as the stock exchanges or securities commissions, as well as changes to accounting standards that may have an effect on the preparation or disclosure of the financial statements of the Corporation or its subsidiaries, and inform the Board of Directors thereof where appropriate; and
- 10.3.10 review the report of management on any dispute, notice of assessment or any other claim of a similar nature which may have a material effect on the Corporation's financial situation, and ensure that these material claims are correctly disclosed in the financial statements.

10.4 Miscellaneous

Exercise any other functions entrusted to it by the Board of Directors and make such recommendations to it as it considers appropriate on the subjects within its competence.
